

Micro Technology Group

Company Overview
2011

Company Mission

- Represent electronic component manufacturers that provide enabling technology solutions for our customers
- Develop sales strategies that incorporate our suppliers core competencies and target markets and result in increased design wins
- Bring a exceptional level of “service value” for our principals, customers and channel partners

MTG Product Portfolio

Power Management

- Discrete Semiconductors
- Power ASICs
- Current Sensors
- Passive Components
- Connectors
- Power Supplies

Light & Sensing

- LEDs
- CCFL Lamps & Inverters
- Incandescent Lamps
- Opto Sensors
- Gyros & Accelerometers
- Connectors

- Fans & Blowers
- Thermal Lubricants
- Metal Clad PCBs
- Diode Sub Mounts
- Heavy Copper Substrates
- Connectors

Thermal Management

- PCBs & Substrates
- MicroPen Scribing
- Electronic Packaging
- Advanced Manufacturing Technologies
- Sub Assembly EMS

Manufacturing Technology

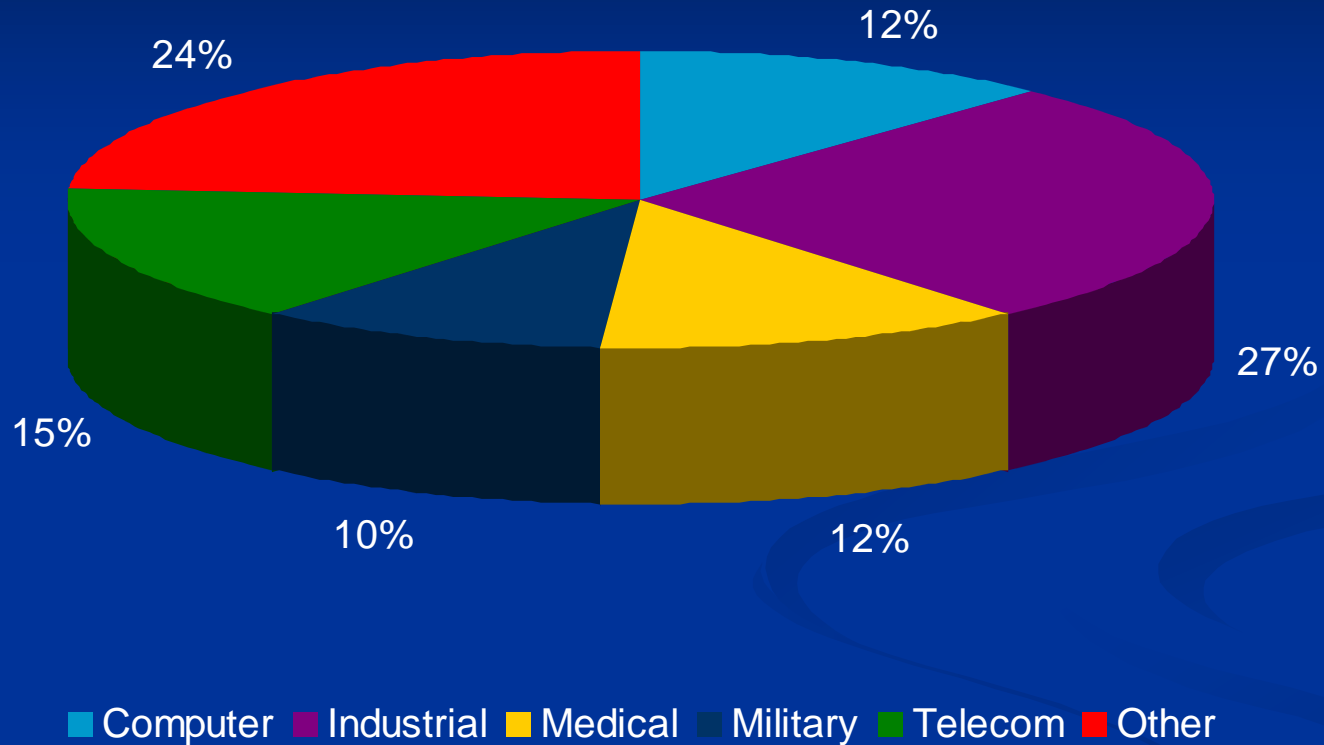

Territory Coverage

- A. Robinson: MA, NE
- S. Simons: MA, NH
- E. Renola: MA, CT, VT
- B. Sullivan: : MA, RI

End Markets Analysis

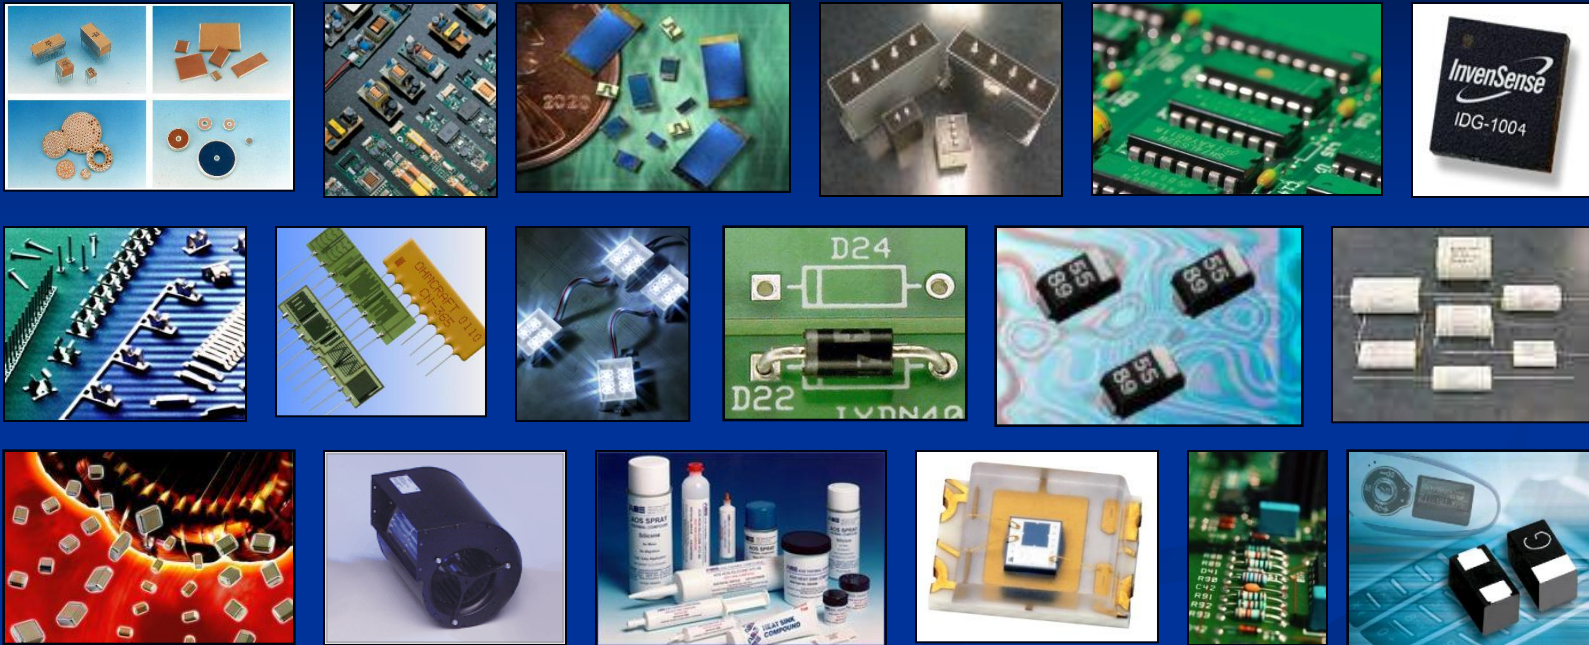

New England Market Trends

- Primary markets include industrial, power supply, medical, military, and telecom
- Primarily OEM design activities with NPI and small volume production facilities
- High volume production has transitioned to EMS or moved to the Far East and China
- Distribution POS represents over 50% of TAM in New England

More than solutions.....

ENABLING TECHNOLOGIES
